# Inspiration behind the Stylify App

Stylify was created with the aim of assisting local businesses in managing their customer appointments effectively and preventing any overlaps. In addition to streamlining the appointment booking process, the app helps businesses attract new customers and keep loyal ones by offering exclusive deals. To address the common challenge faced by many businesses of monitoring their performance, Stylify provides valuable insights into revenues, customer feedback, and staff performance.

## Challenges Faced by Businesses:

### 1. Inefficient Appointment Management

Manual appointment booking can lead to overlaps and scheduling conflicts, causing inconvenience to customers and lost business.

### 2. Customer Attraction and Retention Challenges

Difficulty in attracting and retaining customers due to changing demands and preferences.

### 3. Costly Business Insights Tracking

Monitoring business insights can be time-consuming and take up valuable resources.

# App Features

## Valuable Business Insights

Stylify enables easy monitoring of revenue, feedback, and staff performance for data-driven decisions to optimize operations and stay competitive.

## Streamlined Appointment

Stylify streamlines appointment bookings, minimizing overlaps and scheduling conflicts. This ensures an excellent customer experience, leading to increased satisfaction and retention.

## Improved Customer Engagement

Stylify enables effective customer engagement with exclusive deals, leading to attraction, retention, and revenue growth.

# Personas

## Customer

Miley is a student who's been in Canada for few months now. Her goal is to become a Marketing manager. She really cares about her appearance but haven't found a favourite stylist yet and changes salon frequently.

### Goals

- Want to know beforehand what to expect from salon.
- Get the best possible experience.
- Save money and time.

### Frustrations

- Not familiar with salons in the area.
- Want to find a place that suits her taste.
- Tired of changing stylists frequently.

## Business

Jon is a salon owner in Canada. His goal is to make salon business grow. He really cares about his customers and want to provide them smooth customer services.

### Goals

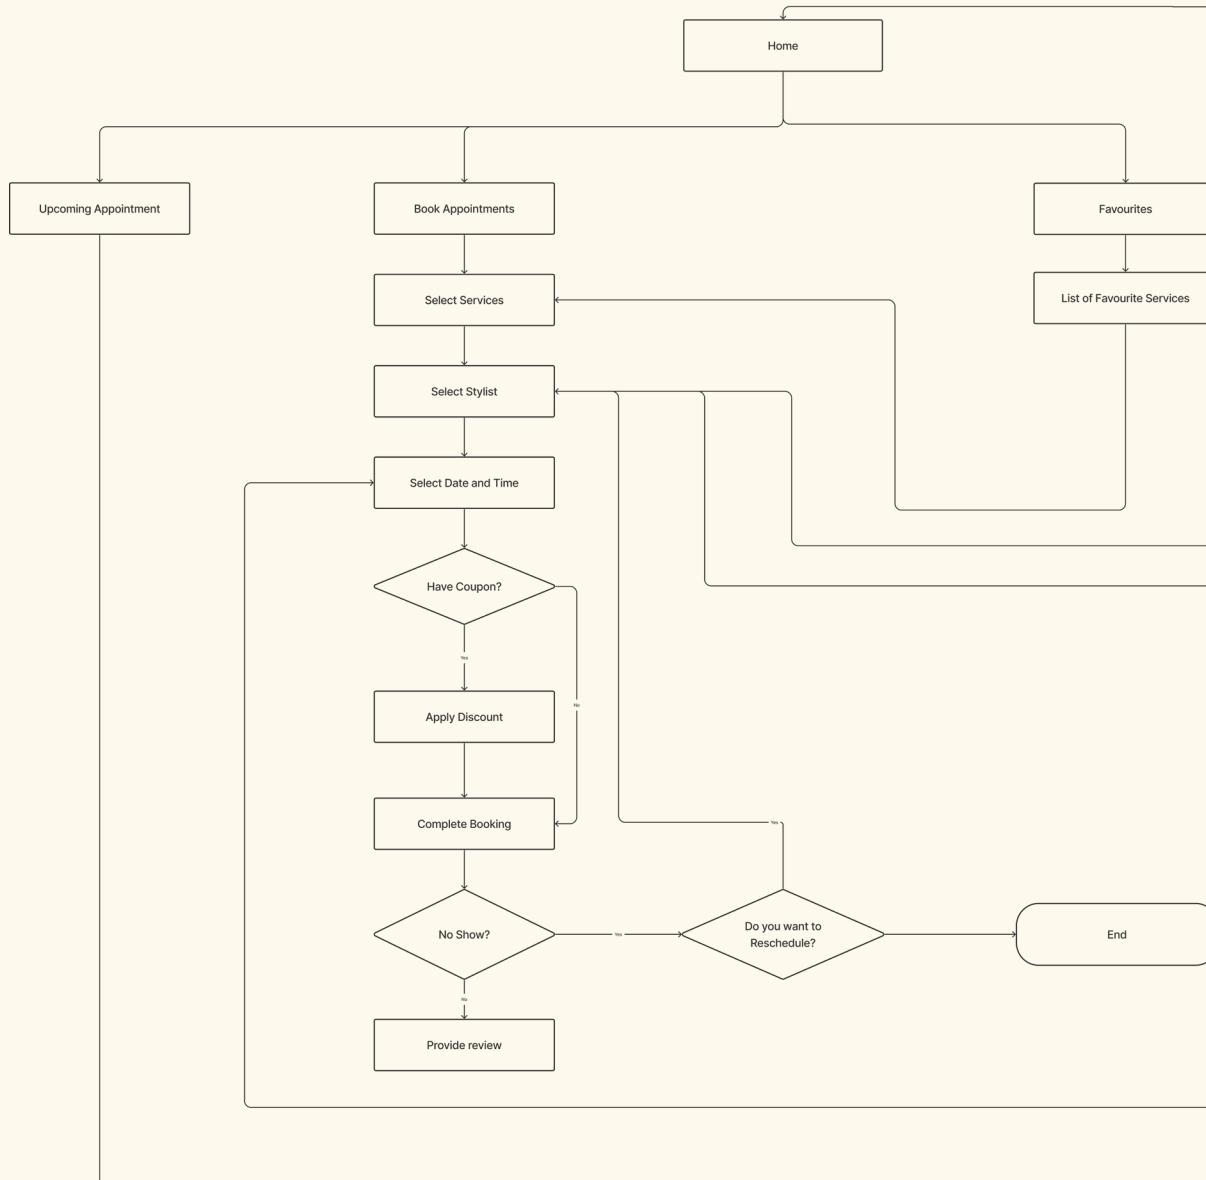

- To keep track of sales and revenue.
- Provide best customer experience.
- Check availability of their stylists.

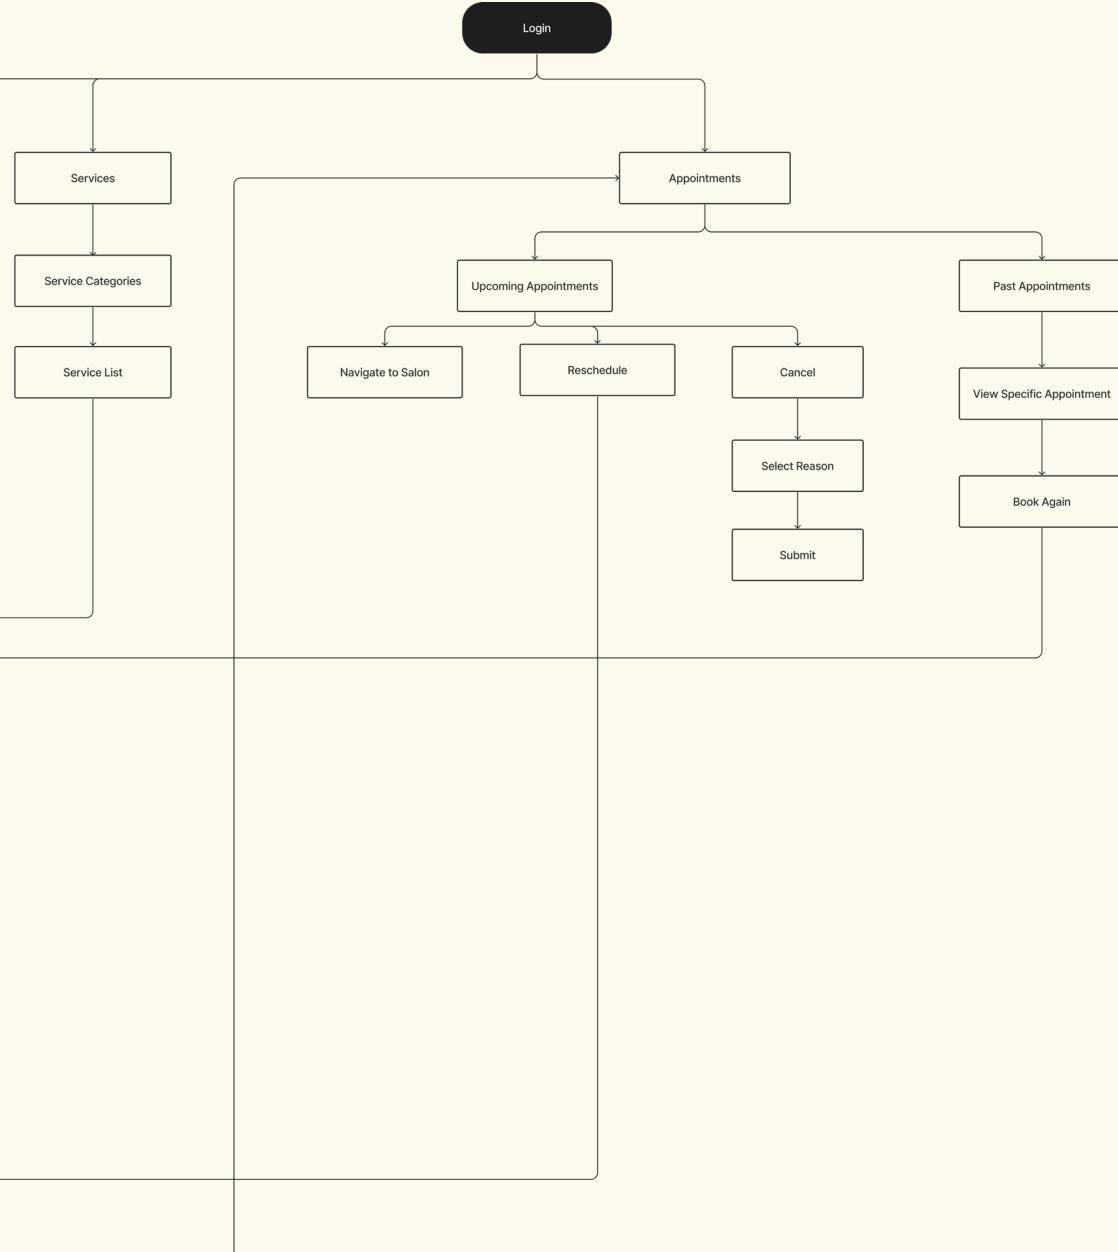

### Frustrations

- No way to get reviews after the appointments.
- Hard to keep record of money made.
- Unsure about their loyal customers.

# User Flow

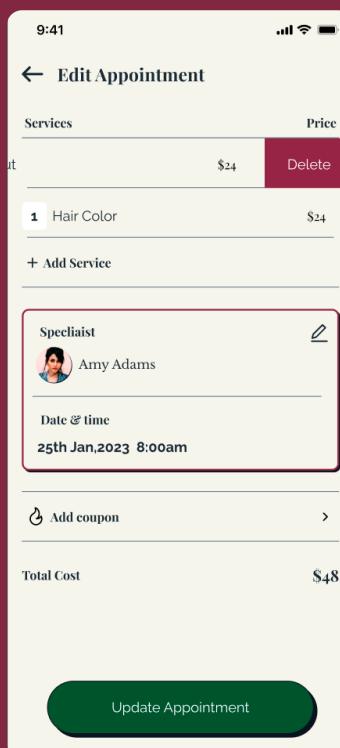

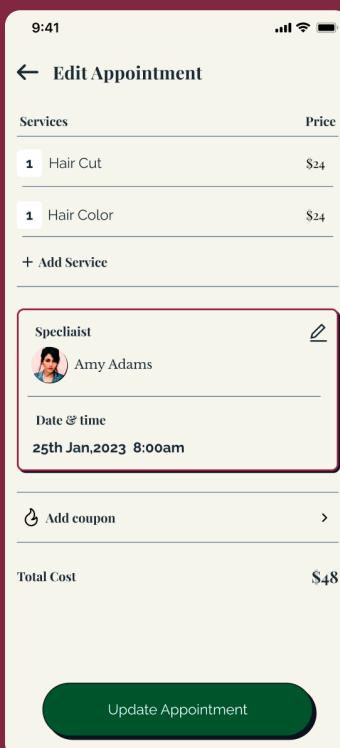

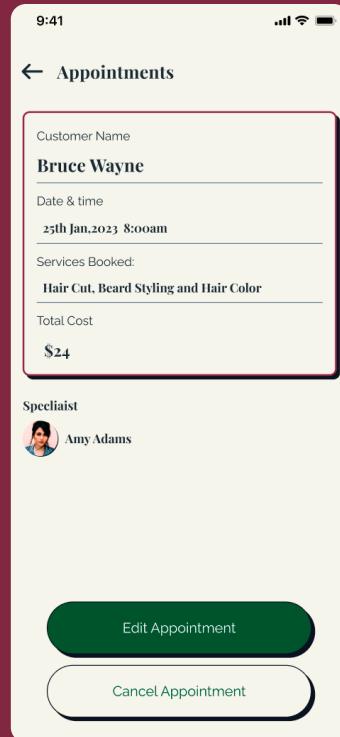

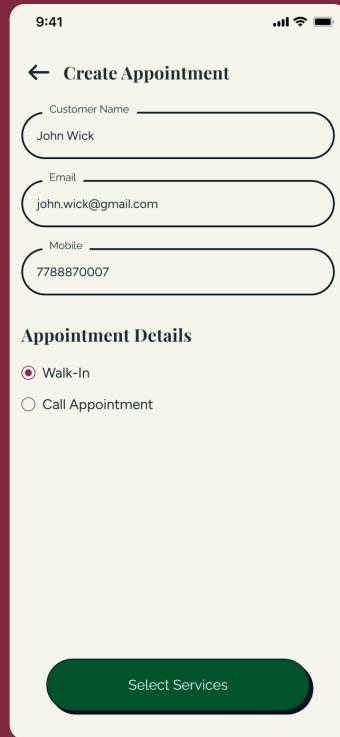

# Wireframes

The wireframes illustrate the user flow for managing appointments and services:

The headings are set in **Playfair Display**, a classic serif typeface that has a timeless feel with a good X-height giving the lowercase letters good, large appearances. Additionally, its kernings and open counters ensure that the text is easily readable.

The body text, buttons, and links are set in **Figtree**, a modern sans-serif typeface that has a clean and geometric feel. Additionally, with its large set of weights give us ample of options to select for particular use. Just like Libre baskerville, Figtree also boasts on its large X-height, which makes the text more legible and readable.

## Business Model

At present, Stylify is exploring various business models with industry experts to determine the best approach. Our competitors offer subscription-based models with additional fees for specific features, but we are assessing the appeal of this model to our customers. While we initially focus on salons, we plan to expand to other beauty businesses, such as spas, in the future. We will also continually develop new features based on user feedback and needs.

# Future Features

Stylify team strongly believes in always improve the application with new features or improving existing ones. Based on that belief, this are the features that we plan to implement on the next months:

## **Market Expansion ->**

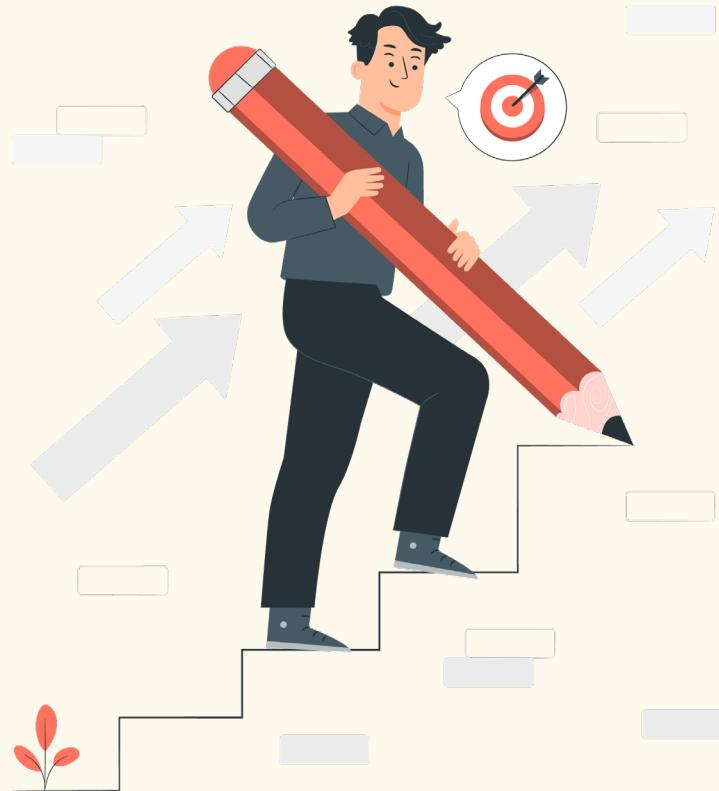

Now Stylify focus specially in the Business of Salons, but as a company the team understands that there is a market opportunity to work with other businesses and increase the market and presence of Stylify. The main goal will be on other Beauty Businesses. previous works and be able to judge if they want to get a service with that professional or not.

## **Payment ->**

Businesses will be able to receive the payment of the services that clients hire directly through the application, the company still studying what is the best method to implement this, but soon the implementation of this feature will simplify the interaction between costumer and business.

## **Portfolio ->**

Users will be able to access the Instagram of the professionals to check their previous works and be able to judge if they want to get a service with that professional or not.
